Digital Concepts for Real Life

Website

www.multiversal.space

Technical Skills

Frontend

HTML, CSS, SASS, JavaScript, XML, JSON, J-Query, Ajax, Axios, React, Redux, JSP, Angular, Bootstrap, Flexbox, Grid, Postman

Backend

Java, Spring Boot, JPA and Hibernate, Maven, Pom, Node.js, Express, PG, NPM, NVM, Package. JSON, Python, Django, Pip3, Pick Basic, C, Oracle, SQL Server, PostgreSQL, MongoDB, Redis

ENV

Jenkins, Heroku, Proxmox, Windows, Linux Mint, Linux Debian, Ubuntu, MacOS, Bash, Powershell, Zsh, Homebrew, Chocolatey, Git

Professional Experience

SOLIFI | December 2021 – October 2023
Associate Software Engineer
- Java, Pick Basic, Oracle, And SQL Server
- Worked directly with customers on open tickets ranging from user error to actual defects. Used documentation, log review, code analysis, and cloud test environments to support findings and validate solutions before presenting a fix for the customers' production accounts. Utilized skills in Java, Pick Basic, Oracle, and SQL Server.

ACTIVISION | May 2021 – December 2021
Blizzard – Functional Game Tester
- Responsible for reporting at least 15 bugs a day with supporting evidence to Jira with build information and tags so that it would not be resubmitted by other testers.

TRILOGY | September 2020 – February 2021
Substitute Teachers Assistant
- React, Node, Express, and PostgreSQL
- Served as a guide to assist students with picking feasible ideas for their solo projects. Also helped instill best programing practices like using the appropriate naming conventions, using baby steps, and logging to debug through their own mistakes. Applied skills in React, Node, Express, and PostgreSQL.

ROBERT HALF | September 2020 – October 2020
Ad-hoc Node Consultant
- React, Redux, Node, Express, and PostgreSQL
- Consulted for a MERN project that wasn't working correctly. This entailed white box testing to locate the problem areas in the code. Utilized skills in React, Redux, Node, Express, and PostgreSQL.

ASTON TECHNOLOGIES | March 2020 – July 2020
Java Developer
- Angular, Java, Spring Boot, JPA and Hibernate, and Oracle
- Built out end-to-end web services for HR portal. This included Auth, API end points, and using ORM to convert OOP to RDBMS. Gained expertise in Angular, Java, Spring Boot, JPA and Hibernate, and Oracle.

NU CAMP | November 2019 – March 2020
Bootcamp Instructor
- HTML, CSS, JavaScript, Bootstrap, Node, and Serverless
- Used HTML, CSS, JavaScript, and Bootstrap to teach the fundamentals of building static webpages. Went beyond the standard teaching curriculum by showing students how to host their sites for free on Heroku. Also gained expertise in Node and Serverless.

Education

Certificate in Full-Stack Software Engineering
Prime Digital Academy

Bachelor of Science, Computer Science
Expected graduation date 3/1/2026
GPA 3.7
